

JOHNS HOPKINS
BLOOMBERG
SCHOOL of PUBLIC HEALTH

Protecting Health, Saving Lives – *Millions at a Time*

Faculty Position Department of Epidemiology

The Department of Epidemiology at the Johns Hopkins Bloomberg School of Public Health invites applications for a position at the rank of Assistant Scientist in the Infectious Diseases area of concentration.

Applicants should hold a PhD in Epidemiology, along with experience working with international HIV prevention trials.

The successful candidate will:

- assume a leadership role in epidemiology research relating to HIV and other infectious diseases
- investigate and research innovative and effective means of preventing the transmission of HIV and other infectious diseases among at-risk and vulnerable populations
- advise on methodological and statistical issues relating to epidemiological study designs and methods of data collection
- develop training materials and workshops relating to international data collection and project management
- liaise with colleagues on issues relating to research study activities, including applications for funding, training, data collection, analysis and publication
- lead the development and instruction of core epidemiology graduate classes
- advise graduate students
- perform other related duties as assigned

The search will remain open until the position is filled. Interested applicants should send their curriculum vitae and the names of three references to:
